Bore Style:

Plain both ends

Design Type:

Spur second gear

Construction:

Assembled

Outside Diameter:

0.7344 inches first gear

Nominallength:

0.910 inches

Bore Diameter:

0.126 inches both ends

Material:

Steel comp 303

Material Specification:

Qq-s-763, class 303 cond a federal specification single material response

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A270a0
