Attachment Method:

Clamp

Pitch Diameter:

Between 1.8740 inches and 1.8750 inches

Teeth Quantity:

90

Nominallength:

0.438 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.313 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.241 inches both ends

Surface Treatment:

Passivate hub

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
