Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

1.8750 inches

Teeth Quantity:

120

Nominallength:

0.281 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.188 inches first end

Face Width:

0.093 inches

Bore Diameter:

0.187 inches both ends

Hub Diameter:

0.249 inches first end

Clamping Surface Length:

0.157 inches first end

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300

Mil-std (military Standard):

Mil-a-8625 spec.
