Attachment Method:

Clamp

Pitch Diameter:

0.9583 inches

Teeth Quantity:

92

Nominallength:

0.432 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Face Width:

0.125 inches

Bore Diameter:

0.187 inches both ends

Hub Diameter:

0.248 inches first end

Precision Classification:

Quality number 12

Material:

Aluminum alloy 2024

Surface Treatment:

Anodize

Special Test Features:

Navord od36190

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300

Mil-std (military Standard):

Mil-a-8625 spec.
