Attachment Method:

Clamp

Pitch Diameter:

1.4526 inches

Teeth Quantity:

93

Face Type:

Concave

Bore Style:

Plain both ends

Outside Diameter:

1.484 inches

Tooth Direction:

Right

Mating Thread Lead Quantity:

2

Pressure Angle:

14.5000 degrees

Helix Angle:

3.5625 degrees

Distance Between Body Face And Protruding Hub End:

0.219 inches first end

Face Width:

0.188 inches

Bore Diameter:

0.188 inches both ends

Hub Style Designator:

Split first end

Hub Diameter:

0.250 inches first end

Material:

Steel comp 303 hub

Material Specification:

Qq-s-764, cond a federal specification single material response hub

Surface Treatment:

Passivate hub

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
