Body Style:

Plain, solid

End Application:

Synchro assembly, nsn 5990-01-041-0196; radi solar telescope network an/frr-95; meteorological and weather network 4331

Pitch Diameter:

5.0620 inches

Teeth Quantity:

162

Criticality Code Justification:

Feat

Outside Diameter:

5.125 inches

Nominallength:

5.125 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Face Width:

0.187 inches

Special Features:

T.O. 31m3-4-6-4; weapon system essential

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
