Pitch Diameter:

Between 0.6032 inches and 0.6042 inches

Teeth Quantity:

58

Nominallength:

0.325 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.221 inches first end

Face Width:

0.104 inches

Bore Diameter:

0.125 inches both ends

Hub Diameter:

0.185 inches first end

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
