**Attachment Method:**

Clamp

**Pitch Diameter:**

1.5000 inches

**Teeth Quantity:**

72

**Bore Style:**

Plain both ends

**Features Provided:**

Casehardened

**Outside Diameter:**

1.5470 inches

**Tooth Form:**

Standard

**Pressure Angle:**

20.0000 degrees

**Distance Between Body Face And Protruding Hub End:**

0.250 inches first end

**Face Width:**

0.125 inches

**Bore Diameter:**

0.125 inches both ends

**Precision Classification:**

Quality number 10

**Material:**

Steel

**Style Designator:**

Protruding hub

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A27300
