Attachment Method:

Clamp

Pitch Diameter:

1.5000 inches

Teeth Quantity:

72

Bore Style:

Plain both ends

Features Provided:

Casehardened

Outside Diameter:

1.5470 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.250 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.125 inches both ends

Precision Classification:

Quality number 10

Material:

Steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
