Body Style:

Webbed, with lightening holes

Pitch Diameter:

19.5000 inches

Teeth Quantity:

78

Bore Style:

10a w/ keyway both ends

Hardness Rating:

200.0 brinell standard teeth

Outside Diameter:

19.9000 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Face Width:

2.750 inches

Bore Diameter:

3.250 inches both ends

Hub Style Designator:

Plain both ends

Hub Diameter:

6.000 inches first end

Material:

Steel comp 105-85

Material Specification:

A148-55 assn standard single material response

Style Designator:

Flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
