Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

1.0625 inches

Teeth Quantity:

68

Features Provided:

Alignment hole

Mounting Hole Type And Quantity:

3 countersunk transversely through face

Outside Diameter:

1.2500 inches

Teeth Type:

Single helix

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Face Width:

0.438 inches

Mounting Hole Diameter:

0.1205 inches transversely through face

Special Features:

Mtg holes 120 degs apart, centered 0.125 in. From face

Material:

Steel

Material Specification:

Mil-c-13924, class 2 military specification single material response

Surface Treatment:

Oxide

Style Designator:

Plain ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27300

Mil-std (military Standard):

Mil-c-13924 spec.
