| Spline Quantity:                                |
|---|
| 21 second end                                   |
| Bore Style:                                     |
| Involute spline both ends                       |
| Design Type:                                    |
| Spur third gear                                 |
| Spline Pitch Diameter:                          |
| 1.0500 inches second end                        |
| Construction:                                   |
| Solid   |
| Hardness Rating:                                |
| 83.0 rockwell a                                 |
| Outside Diameter:                               |
| 3.8000 inches second gear                       |
| Nominallength:                                  |
| 3.111 inches                                    |
| Hub Length:                                     |
| 0.800 inches first end                          |
| Bore Diameter:                                  |
| 1.024 inches both ends                          |
| Counterbore Depth:                              |
| 0.404 inches second end                         |
| Counterbore Diameter:                           |
| 1.969 inches second end                         |
| Hub Style Designator:                           |
| Plain second end                                |
| Hub Diameter:                                   |
| 3.1680 inches between second and third gear     |
| Special Features:                               |
| Third gear internal on end                      |
| Material:                                       |
| Steel comp e9310                                |
| Material Specification:                         |
| Ams 6265 assn standard single material response |
| Shelf Life:                                     |
| N/a   |
| Unit Of Measure:                                |
|   |
| Demilitarization:                               |
| Yes - demil/mli                                 |
