Spline Major Diameter:

0.854 inches

Outside Diameter:

3.875 inches

Spline Quantity:

15

Spline Minor Diameter:

Between 0.700 inches and 0.705 inches

Pitch Diameter:

3.232 inches

Face Width:

Between 0.298 inches and 0.302 inches

Design Form:

Plain

Bore Type:

Involute spline

Spline Pressure Angle In Deg:

30.0

Spline Length:

0.300 inches

Counterbore Feature:

Not included

Spline Pitch Diameter:

0.750 inches

Lightening Hole:

Not included

Teeth Row Quantity:

1

Teeth Quantity Per Row:

5

Hardness Rating Test Method:

Not rated

Bore Bearing:

Not included

Material:

Steel, ams 5643

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Surface Treatment:

Passivate

Style Designator:

Plain

Surface Treatment:

Passivated, qq-p-35, type 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T353-c
