**Spline Major Diameter:**

0.854 inches

**Outside Diameter:**

3.875 inches

**Spline Quantity:**

15

**Spline Minor Diameter:**

Between 0.700 inches and 0.705 inches

**Pitch Diameter:**

3.232 inches

**Face Width:**

Between 0.298 inches and 0.302 inches

**Design Form:**

Plain

**Bore Type:**

Involute spline

**Spline Pressure Angle In Deg:**

30.0

**Spline Length:**

0.300 inches

**Counterbore Feature:**

Not included

**Spline Pitch Diameter:**

0.750 inches

**Lightening Hole:**

Not included

**Teeth Row Quantity:**

1

**Teeth Quantity Per Row:**

5

**Hardness Rating Test Method:**

Not rated

**Bore Bearing:**

Not included

**Material:**

Steel, ams 5643

**Material:**

Steel comp 630

**Material Specification:**

Ams 5643 assn standard single material response

**Surface Treatment:**

Passivate

**Style Designator:**

Plain

**Surface Treatment:**

Passivated, qq-p-35, type 2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T353-c
