Link Style:

Roller

Link Plate Width:

Between 0.229 inches and 0.239 inches

Link Plate Thickness:

0.0300 inches

Link Roller Diameter:

0.1300 inches

Link Width Between Plates:

0.1250 inches

Min. Tensile Strength (psi):

700 pounds per square inch

Material:

Stainless steel

Material Specification:

Qq-s-763 federal specification single material response and qq-s-764 federal specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Mil-f-14072 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23500

Mil-std (military Standard):

Mil-f-14072 spec.
