Roller Chain - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3020-01-205-1923

Link Style:
Roller
Link Plate Width:
Between 0.229 inches and 0.239 inches
Link Plate Thickness:
0.0300 inches
Link Roller Diameter:
0.1300 inches
Link Width Between Plates:
0.1250 inches
Min. Tensile Strength (psi):
700 pounds per square inch
Material:
Stainless steel
Material Specification:
Qq-s-763 federal specification single material response and qq-s-764 federal specification single material response
Surface Treatment:
Passivate
Surface Treatment Specification:
Mil-f-14072 military specification single treatment response
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A23500
Mil-std (military Standard):
Mil-f-14072 spec.
