Spline Quantity:

29 both ends

Pitch Diameter:

7.1250 inches

Teeth Quantity:

57

Bore Style:

Involute spline both ends

Outside Diameter:

7.373 inches

Tooth Form:

Standard

Distance Between Body Face And Protruding Hub End:

0.380 inches first end

Face Width:

1.120 inches

Hub Style Designator:

Plain first end

Material:

Steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
