Body Style:

Plain, solid

Pitch Diameter:

0.2917 inches

Bore Style:

Plain first end

Outside Diameter:

0.3130 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.207 inches first end

Face Width:

0.1250 inches

Bore Diameter:

0.1248 inches first end

Bore Depth:

0.3125 inches first end

Hub Style Designator:

Pinned first end

Hub Diameter:

0.312 inches first end

Material:

Steel comp 303

Surface Treatment:

Passivate

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
