End Application:

Alden1800 9271mr

Pitch Diameter:

5.5000 inches

Face Type:

Concave

Bore Style:

Partial first end

Outside Diameter:

5.625 inches

Mating Pitch Diameter:

13.2 millimeters

Thread Form Quantity:

1

Thread Form Direction:

Right-hand

Pressure Angle:

2.2500 degrees

Helix Angle:

0.025 radians

Distance Between Body Face And Protruding Hub End:

0.187 inches first end

Face Width:

0.375 inches

Bore Diameter:

0.500 inches first end

Bore Depth:

0.750 inches first end

Material:

Aluminum alloy body

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
