Face Type:

Straight

Bore Style:

Plain both ends

Outside Diameter:

0.438 inches

Thread Form Quantity:

4

Thread Form Direction:

Right-hand

Pressure Angle:

25.0000 degrees

Helix Angle:

15.9500 degrees

Distance Between Body Face And Protruding Hub End:

0.188 inches first end

Face Width:

0.688 inches

Bore Diameter:

0.188 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.350 inches first end

Material:

Stainless steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
