End Application:

Weapons system jg, seawolf class ssn

Teeth Type:

Spur

Pressure Angle:

20.0000 degrees

Special Features:

4 required for the depth control pressurization valve assembly

Material:

Steel comp 316

Material Specification:

Ams-5610 cond t assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
