**End Application:**

Seawolf class ssn

**Pitch Diameter:**

11.000 inches

**Teeth Type:**

Spur

**Pressure Angle:**

20.0000 degrees

**Face Width:**

1.000 inches

**Err Default:**

Err default

**Special Features:**

Second gear has 20 teeth in 360 degrees, 20 degrees pressure angle, 0.875 in. Face width, and 5.000in. Pitch dia

**Material:**

Nickel alloy

**Material Specification:**

Qq-n-288, comp b, cond as federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A270a0
