End Application:

Aircraft, (ac-130a, ac-130h, mc130h)

Teeth Quantity:

156

Bore Style:

Plain first end

Pitch Radius:

3.2500 inches

Hardness Rating:

55.0 rockwell c body and 60.0 rockwell c body

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Body Recess Depth:

0.250 inches between body and flange

Face Width:

0.625 inches

Bore Diameter:

1.8138 inches first end

Outside Radius:

3.2915 inches

Precision Classification:

Quality number 12

Arc Length:

4.280 inches

Product Name:

Gear sector, roll

Material:

Steel comp 440c body

Surface Treatment:

Lubricant dry film body and passivate body

Style Designator:

Hubless, recessed body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
