**End Application:**

Aircraft, (ac-130a, ac-130h, mc130h)

**Teeth Quantity:**

156

**Bore Style:**

Plain first end

**Pitch Radius:**

3.2500 inches

**Hardness Rating:**

55.0 rockwell c body and 60.0 rockwell c body

**Tooth Form:**

Standard

**Pressure Angle:**

20.0000 degrees

**Body Recess Depth:**

0.250 inches between body and flange

**Face Width:**

0.625 inches

**Bore Diameter:**

1.8138 inches first end

**Outside Radius:**

3.2915 inches

**Precision Classification:**

Quality number 12

**Arc Length:**

4.280 inches

**Product Name:**

Gear sector, roll

**Material:**

Steel comp 440c body

**Surface Treatment:**

Lubricant dry film body and passivate body

**Style Designator:**

Hubless, recessed body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A27300
