End Application:

Nssn class submarine

Face Type:

Straight

Pressure Angle:

30.0000 degrees

Product Name:

Weapons handling athwartship drive gearbox sub asssembly and details

Special Features:

Diametral pitch is 20/40; type-flat root side fit -modified, class 5; involute form diameter is 1.054; major diameter is 1.072 max; circular space width actual is .0813 and effective is .0785

Material:

Steel body

Material Specification:

Ansi 892.1-1970 standard federal specification single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
