End Application:

Nssn class submarine; lpt and wst 30 in. Lower hatch and operator assembly

Teeth Quantity:

14

Pitch Radius:

4.6000 inches

Pressure Angle:

20.0000 degrees

Face Width:

5.5000 inches

Outside Radius:

5.5000 inches

Product Name:

Gear

Special Features:

Whole gear would have 23 teeth. Actual gear has 14 teeth

Material:

Steel

Material Specification:

Astm-a564 type 630 cond-h1100 assn standard single material response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
