End Application:

Nha rotary hydraulic actuator model 170d

Teeth Quantity:

16

Features Provided:

Casehardened

Product Name:

Pinion

Special Features:

Alternate material nickel copper aluminum per qq-n-256, cl. A, hot finished, age hardened.

Material:

Steel comp 630

Material Specification:

Astm a564, alloy s17400, type 630, cond. H1150 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
