**End Application:**

Nha rotary hydraulic actuator model 170d

**Teeth Quantity:**

16

**Features Provided:**

Casehardened

**Product Name:**

Pinion

**Special Features:**

Alternate material nickel copper aluminum per qq-n-256, cl. A, hot finished, age hardened.

**Material:**

Steel comp 630

**Material Specification:**

Astm a564, alloy s17400, type 630, cond. H1150 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A27300
