Body Style:

Plain, solid

Attachment Method:

Setscrews

Pitch Diameter:

0.8750 inches

Teeth Quantity:

42

Bore Style:

Plain between body and flange

Outside Diameter:

0.917 inches

Distance Between Body Face And Protruding Hub End:

0.218 inches between body and flange

Face Width:

0.125 inches

Bore Diameter:

0.1873 inches between body and flange

Bore Depth:

0.343 inches between body and flange

Hub Style Designator:

Pinned between body and flange

Hub Diameter:

0.375 inches between body and flange

Material:

Aluminum alloy 2024

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
