**Bore Style:**

Plain both ends

**Teeth Type:**

Spur

**Pressure Angle:**

20.0000 degrees

**Bore Diameter:**

1.438 inches both ends

**Product Name:**

Pinion, locking

**Special Features:**

First sector has 9 actual teeth; second sector has 29 actual teeth.

**Material:**

Nickel alloy

**Material Specification:**

Qq-n-288-cmpsn, cond-as cast federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A27300
