End Application:

Universal ammunition loading (ual) system

Teeth Quantity:

35

Pressure Angle:

20.0000 degrees

Product Name:

Gear, spur, element

Special Features:

Tooth form - ansi b6.1-1968; meshes with 132d1903 gear; diametral pitch (cutter) - 11.500; pitch diameter (ref) 3.043; base diameter (ref) 2.859; diameter of pins 0.157

Material:

Steel comp 4140

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
