Groove Depth:

0.625 inches

Groove Width:

0.531 inches

End Application:

Reverse osmosis sys; crane straddle; lpd class

Material And Location:

Iron, cast

Design Form:

6 grooves

Bearings:

Included

Groove Quantity:

6

Securing Method:

Setscrew and key and bushing

Split Hub Feature:

Included

Groove Shape:

V

Standard V-belt Section Designation For Which Designed:

5

Bore Feature:

Included

Bearing Type:

Bushing sk

Protruding Hub Characteristic:

Stepped

Product Name:

6 groove pulley

Special Features:

Bore range 1.2 to 2 5/8 in, pd5v belts 6.20 in, face width 4 7/16in, od 6.3in, less bushing 17.4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T353-a
