End Application:

Navy motor gear

Pitch Diameter:

2.437 inches

Teeth Quantity:

39

Outside Diameter:

2.562 inches

Tooth Form:

Standard

Face Width:

0.750 inches

Bore Diameter:

0.945 inches both ends

Product Name:

Agma course pitch spur full depth tooth form

Special Features:

Mating part number: 35546-25

Material:

Steel comp 4140h

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
