Pitch Diameter:

7.25000 inches

Teeth Quantity:

232

Pressure Angle:

20.0 degrees

Product Name:

Gear, resolver

Special Features:

Diametral pitch 32, tooth form involute: addendum : .03125 & whole depth : .07075, nom cir thickness on standard pd: .0490875, min and maximum backlash with matt: .001/.003, agma quality number 10, radius over .05400 diameter pins: 3.6620-3.6625 testing pressure (ounces) 24.

Material:

Steel comp 304

Material Specification:

Astma240 national specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
