Body Style:

Plain, with lightening holes

Keyway Quantity:

1

End Application:

Winch assembly

Pitch Diameter:

12.637 inches

Teeth Quantity:

95

Outside Diameter:

12.887 inches

Teeth Type:

Single helix

Tooth Direction:

Left

Pressure Angle:

20.0 degrees

Helix Angle:

20.0 degrees

Distance Between Body Face And Protruding Hub End:

0.750 inches second end

Face Width:

2.750 inches

Product Name:

Intermediate gear

Material:

Steel comp 414

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
