Performance Type:

Standard capacity

Width:

20.0 millimeters

Inside Circumference:

2040.0 millimeters

Usage Design:

Transmitting power

Thickness:

1.0 millimeters

Material:

Fiber body and rubber body

Surface Condition:

Smooth pulley surface

Style Designator:

Regular flat type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A228b0
