Environmental Protection:

Heat resistant and oil resistant and static free

Strengthening Feature:

Synthetic cord

Performance Type:

Standard capacity

Cross-sectional Size:

3v

Effective Outside Length:

60.000 inches

Section Quantity:

4

Material:

Fiber body and rubber body and fiber synthetic body and rubber chloroprene class cr body and rubber synthetic body

Style Designator:

Multi-v-band drive

Purchase Description Identification:

81300-4r3v600

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A228b0
