**Performance Type:**

Standard capacity

**Width:**

7.0 millimeters

**Inside Circumference:**

1930.0 millimeters

**Usage Design:**

Transmitting power

**Thickness:**

1.0 millimeters

**Material:**

Fiber and rubber body

**Surface Condition:**

Smooth pulley surface

**Style Designator:**

Regular flat type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A228b0
