Performance Type:

Standard capacity

Width:

4.5 millimeters

Inside Circumference:

165.9 millimeters

Usage Design:

Transmitting power

Thickness:

0.4 millimeters

Material:

Fiber and rubber and rubber synthetic body

Surface Condition:

Smooth

Style Designator:

Regular flat type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A228b0
