Environmental Protection:

Oil resistant and heat resistant and static free

Strengthening Feature:

Synthetic cord

Performance Type:

Standard capacity

Effective Outside Length:

1550.0 millimeters

Belt Quantity:

2

Material:

Fiber body and rubber body and fiber synthetic body and rubber chloroprene class cr body and rubber synthetic body

Style Designator:

Plain

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A228b0
