Width:

316.0 millimeters

Inside Circumference:

336.0 millimeters

Usage Design:

Conveying materials

Thickness:

5.5 millimeters

Special Features:

Used on photographic processing assembly

Material:

Rubber synthetic body

Style Designator:

Regular flat type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A228b0
