Width:

0.036 inches

Pitch Length:

14.137 inches

Drive Type And Quantity:

14 teeth

Special Features:

018 dia. St. Steel cable; 90aduator; polyurethane (light brown); ultimate tensile strength 20lbs (7lbs/pin); temp range +180 degree f -55 degree f; recommend operating load 4-5 lbs, operating speed 1800 rpm; flexible; positive drive

Material:

Plastic polyurethane top surface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A228b0
