Ply Quantity:

3

Outside Length:

1954.0 millimeters

Environmental Protection:

Abrasion resistant and chemical resistant and dustproof and oil resistant and fungus resistant and waterproof

Strengthening Feature:

Nylon cord

End Application:

Purifier, fuel oil 881207-04-01/0

Width:

60.0 millimeters

Usage Design:

Transmitting power

Thickness:

2.3 millimeters

Product Name:

S tangential/flat belt

Special Features:

Constant coefficient of friction; dimensionally stable

Material:

Rubber butadiene-acrylonitrile class nbr top surface cover

Surface Condition:

Smooth top surface cover

Style Designator:

Regular flat type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A228b0
