Positive Drive Belt - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3030-01-652-2934

Environmental Protection:
Abrasion resistant and heat resistant and oil resistant
Strengthening Feature:
Nylon cord
Performance Type:
Standard capacity
Width:
0.062 inches
Pitch Length:
20.0 inches
Drive Type And Quantity:
100 teeth
Product Name:
Standard timing belt
Special Features:
Fiberglass tension members, chloroprene body with nylon covered teeth, all bonded together for strength; fiberglass tensile cord: high
dimensional stability; chloroprene belt body: oil, heat and ozone resistance; high tooth shear resistance; nylon tooth cover: durability and
wear resistance, increased power capacity
Material:
Rubber chloroprene class cr body
Style Designator:
Positive drive
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
A228b0
