End Application:

Airesearch p/n 383504-1

Special Features:

Master gear helical 15 teeth, 7 degrees right hand helix angle, 20 degrees pressure angle diameter pitch 20, internal involute spline 7 degrees helix angle, dia pitch 20, pressure angle 20 deg, 15 teeth, pitch diameter 0.7556, pinion involute external spline diameter pitch 20/40, 30 degrees pressure angle, 35 teeth, pitch diameter 1.7500; master gear o/a diameter 1.795 to 1.800 dia; o/a width 0.195 to 0.205; pinion o/a lg 1.180 to 1.190; o/a diameter 0.8742 to 0.8749; fsc appl: aircraft starter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505p0
