Mounting Provision:

Unthreaded mounting holes

Tempurature Rating:

Not rated

Body Outside Diameter:

12.000 inches

Pressure Rating:

Not rated

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

External threaded

Mounting Type And Location:

Flange center section

Port Location And Quantity:

1 cylinder head end

Fsc Application Data:

Marine landing ramp

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
