Shoulder Width:

0.220 inches

Shoulder Outside Diameter:

0.4375 inches

Hub Inside Diameter:

Between 0.124 inches and 0.125 inches

First End Hub Outside Diameter:

Between 0.3473 inches and 0.3746 inches

Distance From First End Hub To Shoulder:

0.310 inches

Special Features:

Dsecuring hole size no.2/0.086 in.-56 thd; attachment method: setscrew; thread size: 0.375 in.Nom; accessory component and qty: hex nut 1; lockwasher 1; set screw 1; o/a length: 0.530; hub thread length: 0.248

Material:

Stainless steel

Material Specification:

Comp 303 federal specification single material response

Surface Treatment:

Passivate

Style Designator:

Single threaded hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A523y0
