End Attachment Style:

Eye first end

Body Construction:

Tubular

Special Features:

End attachment info: connecting centers relative angular position 90.0 deg, connecting hole bearing location one end, locknut included

Material:

Aluminum alloy

Material Specification:

Ww-t-700/3, 2024 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A52410

Mil-std (military Standard):

spec.
