End Application:

5840-00-724-4915

Housing Material:

Aluminum alloy

Special Features:

Shouldered circular housing; inside diameter stepped from 2.375in. To 3.000 in. Dia; o.D. 3.902 in.; double flange w/12 mtg holes 0.136 in. Dia. Equally spaced around flange

Material:

Aluminum alloy

Material Specification:

Qq-a-225/8 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
