Overall Length:

18.750 inches

Core Material:

Steel, corrosion resisting

Core Diameter:

0.250 inches

End Type:

Round male both ends

Casing Material:

Steel, corrosion resisting and nylon

Casing Length Between Ferrules:

13.750 inches

Casing Outside Diameter:

Between 0.423 inches and 0.443 inches

Casing Protective Device Type:

Braided wire shield and plastic cover

Enddiameter:

0.510 inches second end

Overall End Size:

Both ends: 0.500 in. Od, 0.500 in. Lg

Corelength:

13.750 inches

Core Rotation Direction:

Clockwise or counterclockwise

Core Removability:

Removable

Special Features:

Ends have two stainless socket head screws, 10-32 cup point 3/16 in. Lg, at 90 degrees angle through face to bore

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T246-e
